SOUTH CHINA TO SEEK NEW PEACE
DEMAND \$25,000 AS RANSOM FOR BOY

ST. LOUIS, Mo., Nov. 22.—A demand for \$25,000 for the safe return of Dominick Di Franco, 7, son of Constantino Di Franco, "sugar king of Little Italy," has been made by kidnappers of the youth, it was learned today. The Di Franco youth was abducted Monday, Nov. 14. Police have been unable to find a clew as to the abductors of the child.

The conditions imposed by the Canton government follow:

1.—Reputation and abrogation of the 21 Japanese demands imposed upon China by Japan in 1915 and accepted by the Peking government.

2.—Restitution of Shantung to China by Japan.

3.—Resignation of Pres't Hau Shih-Chang of the Peking government so that a new president can be elected by the whole of China.

The captured Americans were Mr. and Mrs. Edgar Bufts and Willard Benham, employees of the American Smelting & Refining Co., and Miss Mary Long, daughter of a former American consul.

A demand for \$5,000 ransom was made but the Americans were released within two hours without payment of the ransom.

The matter was taken up by American officials with the Mexican authorities. The same bandits on the same night captured Oscar Trevino, a Mexican mine owner, and exacted a ransom of \$5,000.

WASHINGTON, Nov. 22.—Four Americans were captured by Mexican bandits near Santa Eulalia, near Chihuahua, on the night of Nov. 14, and held two hours the state department announced today.

The captured Americans were Mr. and Mrs. Edgar Bufts and Willard Benham, employees of the American Smelting & Refining Co., and Miss Mary Long, daughter of a former American consul.

A demand for \$5,000 ransom was made but the Americans were released within two hours without payment of the ransom.

WASHINGON, Nov. 22.—Thomas A. Edison is sure that Henry Ford will do a big thing for the south and for the country in the development of the Muscle Shoals water project. Muscle Shoals will produce a million horsepower and employ a million men, but Mr. Edison is not sure the object lesson to the nation will not be the biggest thing about it.

"Development of Muscle Shoals," said Mr. Edison to me in his laboratory today, "should cause others to develop water power in other parts of the country."
